**An internationally-recognized
technical rescue and
disaster response training center
located in the Midwest.**

"The REACT Center is a great facility located in the Midwest that Iowa Task Force 1 has utilized multiple times. The training grounds are outstanding with a wide variety of training scenarios to test our team in small and large group scaled settings to build our capabilities and knowledge base. The staff at the facility are wonderful to work with and have a wide variety of technical ability to share and expose our team to build upon our knowledge base. They understand what to do, why to do, and can offer examples to keep everyone engaged. They have built classes to fit your budget, needs and schedule. If teams have the ability to train at the REACT they will not leave disappointed or feeling as they were not challenged. This a group of high quality people who care about doing the right thing. REACT has a lot to offer."

Rick Halleran, Task Force Leader
Iowa Task Force 1 – Cedar Rapids Division
Cedar Rapids Fire Department

The REACT Center specializes in providing training required for both military and civilian responders for a safe and successful response to natural and human-caused disasters and emergency incidents. Our central Wisconsin facility provides year-round training in rescue and emergency response. We have state-of-the-art classroom facilities for up to 100 people that are flexible for your needs. The REACT Center is located on the Volk Field Air Base, which gives additional opportunities for training and exercises, along with REACT's two training areas and heavy collapse venues.

The REACT Center has the option to provide on-site lodging and meals for an economical training package. You get the student here and we'll take care of the rest!

"Working with the REACT Center and its staff has been an amazing opportunity for our team. The cadre has an amazing wealth of knowledge and they truly care about providing the students the best possible experience to learn. The training grounds are amazing, and the work they put into maintaining and updating them is second to none. The cadre continues to go out of their way by providing consultation and advice, even when we are not at a scheduled training event. The REACT center was an instrumental part in building our new USAR team and helping us achieve our goals, ahead of schedule. We will continue to use the REACT center for years to come."

Erik Jonassen
 Battalion Chief/ USAR Team Leader
 City of Virginia Fire Department/ MN Task Force-2

CERTIFICATION COURSES OFFERED

The REACT Center is proud to be an accredited testing agency with the National Board on Fire Service Professional Qualifications (Pro Board). The Pro Board has completed an extensive evaluation of REACT's testing and certification program. This third-party evaluation of our system ensures professionalism, security, and compliance with national standards.

All pricing INCLUDES on site barracks lodging and meals during the class. Please inquire on pricing without these services. Most of the classes listed below can also be delivered at your location or in your area. Contact REACT for options and pricing.
